

WITH
ROCKETPEN
EXAM

Students with dyslexia and other reading difficulties can:

- Enjoy reading
- Take an exam next to their classmates
- Become more independent
- Become more self-confident

RocketPen Exam is designed specifically to help students with reading difficulties to overcome the reading barriers. They can take exams knowing that they can read and understand the questions.

This fully portable scanning device reads aloud any printed text using natural voice text-to-speech. Text can be scanned from paper, tablet or computer screen.

Students using the **RocketPen Exam** can be housed with other students as they are not disturbing anyone.

RocketPen Exam Enhances reading comprehension by increasing reading fluency

Following are some of the main features that **RocketPen Exam** is offering to assist you in the reading process, while taking an exam, doing homework or reading any other printed text:

- Scans single word or full line of text
- Text can be scanned from paper or any digital screen, e.g., computer, tablets, smartphones, etc.
- Two scanning modes:
 - Continuous scanning
 - Single line scanning
- Converts text into spoken words in natural voice
- Color touchscreen
- Rechargeable lithium battery
- Designed for both right and left-handed users
- Simple to use - a highly intuitive, user-friendly icon interface
- A stand-alone and self-contained product
- Ergonomic design
- A lightweight device that can be easily carried and used anywhere
